## Harmony science academy lubbock texas

Harmony Science Academy - Houston is a public charter school that gives students in the area a top-notch education. The school is part of a bigger system called Harmony Public Schools that works across the whole state. Our statistics show that most of our graduates go to college, and many choose to study science, technology, engineering, and math (STEM) subjects. We think every kid is unique, so why should every school be the same? Harmony Science Academy - Lubbock believes in giving each student a chance to reach their full potential. We make sure they have a supportive learning environment where everyone works together. Our award-winning curriculum puts a big focus on science, technology, engineering, and math (STEM) to help kids get ready for college and the job market. Our Character Education program is well-known across the country. It teaches students how important it is to be responsible, respect themselves and others, feel empathy, and value everyone. When we combine our academic and social skills, our students learn what they need to become good citizens in their communities. Harmony Science Academy - Lubbock is a free public charter school for kids from Pre-K to 8th grade. We offer after-school programs that can fit into your busy schedule. Our staff leads these programs, keeping the kids safe on campus until you pick them up. Most of our projects. Safety and character education are our top priorities, and we've been recognized as one of the best character schools in Texas. Our daughter has grown so much here, taking advantage of the GT program that focuses on science projects. She's developed her skills and interests, and we're grateful to be a part of this school community. Harmony Science Academy Lubbock is an exceptional institution that prides itself on providing top-notch education in STEM fields. As a tuition-free public charter school, it offers students unique opportunities to engage with hands-on learning experiences like robotics, 3D design, and engineering projects. Safety and character education are paramount, earning it recognition as one of the best character schools in the state in 2024. The school's collaboration with Texas Tech University's STEM departments and the Middle School to Medical program offers middle school students unparalleled opportunities for growth. By focusing on college and career readiness from a young age, students can explore their futures early. The combination of STEM and character education programs makes Harmony Science Academy Lubbock one of the best schools in the city. Parental reviews praise the school's new campus as nice and safe, with talented teachers and helpful staff. However, some parents have expressed concerns about the administration's approach to certain issues, such as bathroom passes and teacher treatment of students. Given article text here How the school's priorities shifted on the first day A parent shares their concerns about Harmony Science Academy, a tuition-free college prep public charter school. They mention that the school initially emphasized student welfare but took an unconventional approach from Day 1. For instance, students were told they had to "earn" bathroom passes, and those who left during class would face detention. The parent's children were also instructed to intentionally fail their initial tests so that their grades could be made to appear better at the end of the year. The parent expresses disappointment with how some teachers handled student conflicts. Their son was targeted by a few peers and reported to his teacher, but instead of intervening, the teacher advised him to "deal with it." Moreover, students were often denied recess time despite being indoors during school hours. Despite their reservations, both children enjoy attending Harmony Science Academy. However, they would admit that this school is one place where they genuinely dislike going. Given article text here However, I have to admit that I missed out on some essential high school experiences due to my school's small size and lack of athletics programs. The absence of events like homecoming, pep rallies, prom, and sports is a significant regret for me. Many students feel the same way as we don't get to participate in various activities beyond academics. On the positive side, I appreciate our teachers' kindness, intelligence, and willingness to help us with any questions or concerns they may have. Despite some drawbacks, such as limited elective options, our teachers are always available to guide us and support our learning. Moreover, everyone gets along well, and we encourage each other to succeed. I truly enjoyed attending Harmony School and am saddened by the thought of graduating. The clubs here are fun and engaging for all students, making it a great experience overall. Additionally, the school's safety record has improved over time, ensuring that our education takes place in a secure environment. Lastly, our workload is relatively manageable, with an optimal balance between classes and courses to choose from. Reviewers praise Harmony Science Academy's teachers for their dedication to students' learning, making complex concepts enjoyable and accessible. The school's strict policies are also appreciated, as they promote discipline and responsibility among the student body. However, one drawback mentioned by reviewers is the limited opportunities for sports participation. Overall, Harmony Science Academy offers a well-rounded education with a focus on STEM fields, career development, and community engagement.
