Grand Theft Auto 6, or GTA 6, is still years off at best but given the popularity of the franchise, it's no wonder that eager fans are already hungry for any information. The last GTA title, Grand Theft Auto 5, has sold over 160 million copies, making it one of the most successful games of all time. However, it came out in 2013, so it makes sense that players are expecting a new entry soon. Rockstar Games is officially working on the next entry in the franchise, but little is known right now beyond speculation. Even so, with how very little we know right now, we can make some educated guesses thanks to some rumors from reputable sources that are leaking, giving us a glimpse of what to expect from GTA 6. Right now, there's no telling when the release of GTA 6 will be. Tom Henderson and Jason Schreier, a reputable industry insider and journalist respectively, have both indicated that the game is likely several years away, with a possible 2025 window. What is GTA 6? GTA 6 is the abbreviated name of the next Grand Theft Auto game, which will almost certainly be named Grand Theft Auto 6. Rockstar Games officially announced that development on the game was happening in February 2022, though of course it has been in development for years before that soft reveal. Rockstar Games has developed some of the best Xbox games available, with the studio's most recent original game, the 2018 Western epic Red Dead Redemption 2, selling over 40 million copies since launch. Past Grand Theft Auto games have been third-person games with a huge emphasis on building an empire of crime and allowing players to do different jobs and pull heists in a massive, open-world sandbox setting. The Xbox One, PS4, and PC ports of Grand Theft Auto 5 introduced new features, including a first-person mode as well, something we'd expect to see stay in the next game, especially since this first-person mode carried over into the aforementioned Red Dead Redemption 2. Where is the GTA 6 map located? Nothing has officially been announced yet, but we've got an idea of where GTA 6 is taking place. According to well-known Battlefield leaker Henderson, GTA 6 will be set in a modern day Vice City, a city that is based on Miami and the setting for the 2002 title Grand Theft Auto: Vice City. Schreier from Bloomberg notes that this information lines up with what he has heard, with VGC's sources also backing this up. Is GTA 6 an MMO? We don't know, but there will probably be some MMO-type elements. Henderson has indicated that the map will evolve and change over time, in line with how the map of Fortnite has radically changed across various updates. This is also in line with GTA Online, which has added new areas throughout various content updates and expansions across its long lifespan. With that in mind, it's unlikely the game will be a "true" MMO and will almost certainly allow players to enjoy the game by themselves if they want, as Rockstar Games has a long history of providing blockbuster singleplayer experiences. Who are the GTA 6 characters? We don't know who the main protagonist(s) of GTA 6 will be yet. Some Rockstar Games opt for a single main character, while Grand Theft Auto 5 allowed players to alternate between three different leads: Franklin Clinton, Michael De Santa and Trevor Philips. It's possible we could get just one main character again like past games, or multiple protagonists like in Grand Theft Auto 5. We'll have to wait and see what Rockstar opts to do here. Will GTA 6 connect to the new version of Grand Theft Auto 5? Rockstar Games is publishing a new version of Grand Theft Auto 5 for the Xbox Series X, Xbox Series S, and PS5. It was originally scheduled to launch on Nov. 11, 2021, but was since delayed to March 15, 2022, with Rockstar Games announcing the delay during the September 2021 PlayStation Showcase. This version of the game comes with 4K and 60 FPS modes, alongside faster loading by tapping into the consoles' ultra-fast internal SSDs, alongside other features such as using the PS5 DualSense haptic feedback and adaptive triggers. There will also be a standalone version of GTA Online that's free for PS5 owners to keep if they redeem it within the first three months. It's possible that Rockstar Games is using this port to explore features of the newest consoles and that different features will be carried over into GTA 6, but this is only speculation. What platforms is GTA 6 coming to? Source: Rockstar Games (Image credit: Source: Rockstar Games) Given how far out this game is and taking into account the patterns of past Rockstar Games, GTA 6 is almost certainly coming to the Xbox Series X, Xbox Series S, and PS5. A PC version will also absolutely happen, but Rockstar may choose to port the game to PC sometime after the initial console launch, as this is something of a pattern for the developer, with the company waiting and porting both Grand Theft Auto 5 and Red Dead Redemption 2 to PC around a year after the console versions. Half the fun of Grand Theft Auto V and GTA Online is cruising around Los Santos in lightning-fast supercars. There's no shortage of incredible vehicles available to players, but trying to figure out which is the fastest isn't as straightforward as you'd think. Some might dominate in a drag race yet end up in a ditch if you put them on a winding track. Others might excel around hairpin turns but lack in overall horsepower. The following list is based strictly on each car's top speed, as trying to determine many traits — such as handling and cornering abilities — is highly subjective and up to personal preference. Instead, consider this a starting point for your own experiments. Every vehicle below is among the best in the game, but you'll need to get behind the wheel before determining which one is right for you. Regardless of what others think or even what the stats say, every player has their own preferences when it comes to racing and their own weaknesses they need to account for. But no matter which of these cars you end up picking, you can rest assured that it'll win its fair share of races. Here are the 10 fastest cars in Grand Theft Auto V. Further reading: Ocelot Pariah (136mph) Despite its understated look, the Ocelot Pariah remains the fastest supercar in Los Santos. It's loosely based on the Ferrari 812 Superfast and Aston Martin V12 Zagato and, even with those stunners as a reference point, still manages to be a rather low-key vehicle. It can be purchased from Legendary Motorsport and runs for the lofty price of \$1,420,000. If you can pull together that much cash, it's certainly worth the investment. Pfister 811 (133mph) Although you wouldn't guess it, the 811 is actually a bit slower than the Pariah. Featuring deep swoops and a traditional over-the-top spoiler, the 811 looks like a powerhouse of a vehicle. And to be fair, it is — albeit a bit too slow to take the number one spot on the list. However, the 811 is much cheaper than the Pariah, clocking in at \$1,135,000 from Legendary Motorsport. Principe Deveste Eight (132mph) The Mazda Furai lives on in the Principe Deveste Eight. This fictional car takes strong cues from Mazda's futuristic prototype, with an extended boot and a low profile that feeds air into the car's internals, keeping things nice and cool during intense race conditions. That fancy engineering adds up, and the Deveste Eight's price tag comes in at a massive \$1,795,000. Bravado Banshee 900R (131mph) A staple in the GTA catalog for years, the Banshee continues to be one of the fastest cars in the game. Modeled around the Mazda RX-7 and Dodge Viper, the coupe-convertible is a lightweight car that's a blast to throw around curvy tracks and hairpin turns. For just \$565,000, the Banshee 900R offers a lot of bang for your buck. Invetero Coquette D10 (130mph) It's not likely to be disputed that this is among the best-looking cars in all of GTA. It's aggressive styling and tight control make it a popular choice for racers of all skill levels, but its high price of \$1,510,000 makes it a trademark of the ultra-rich. Pegassi Toros (128mph) As one of the few SUVs on the list, the Toros makes the ideal getaway car for larger crews. Better yet, it boasts a top speed that is more than capable of hanging with the most expensive supercars. Surprise your rivals by pulling up to the track in a Pegassi Toros, and keep that hard-earned cash in your pocket — Legendary Motorsport is selling it for just \$498,000. Grotti X80 Proto (128mph) The X80 Proto might be the wildest looking car you can buy in GTA Online. With a bold design featuring cutouts, bezels, and an angular front bumper, it certainly fits the vision of a typical supercar. It's not the best when it comes to braking, but if you're looking to go fast, it's hard to find something better. All this power can be yours for the astronomical price of \$2,700,000. Truffade Nero Custom (127mph) Toeing the line between understated and aggressive is the Nero Custom. Modeled after the Bugatti Vision Gran Turismo, the Nero Custom is a powerful machine — if not a bit heavy. Great speed, fast acceleration, and impeccable handling are all wrapped up in a package that can be had for \$605,000. If you're not keen to drop a few million on a wild supercar, we'd highly recommend giving this one a look. Progen Emerus (127mph) Added during the Diamond Casino & Resort update, you'll need to get lucky gambling if you're hoping to afford the second most expensive car on this list. Its price tag of \$2,750,000 might seem insane, but you're getting a car that has a great top speed, accelerates on a dime, and is arguably one of the easiest cars to handle in all of GTA. Due to its low weight, the Emerus can be thrown around tight corners that some heavier cars tend to struggle with. If you've got the money, then this is certainly a worthy investment. Benefactor Krieger (127mph) Rounding out the list is another vehicle added during the Diamond Casino & Heist update, and one that is profitable and expensive. Valued at \$100,000 more than the Emerus, the Krieger boasts many of the same stats as its cheaper cousin. Behind the wheel, it feels a bit like the Emerus, but it isn't as strong at braking and has a bit more weight on its chassis. Painted black, it looks a bit like the Batmobile, and fans of the Audi R8 will love what Rockstar's done with this elusive supercar. Editors' Recommendations
