All five started in kindergarten and went through high school. At PCA, my children were afforded with quality education and had the opportunity to participate in various sports and extra-curricular activities. Their transition into college was seamless and they had very successful college careers. PCA teachers and staff are very committed to the well-being of the students and take a personal interest. They provide a nurturing environment in a Christian setting. Student friendships made at PCA are still in place for my children. - Posted by Parent - JHF 5/3/1/2021Choosing to send our daughter to PCA was the best decision we ever made. She received a great education with teachers who took the time to help and nurture her. She received lifelong friendships and experiences, and most importantly grew closer to God and stronger in her faith. I would highly recommend PCA. It was worth every penny! - Posted by Parent - Gail 5/10/17/2020This is our first year at PCA and I could not be more pleased with our decision to bring our son there. The smaller classes lend themselves to a high level of academic achievement. The communication from the superintendent all the way down to the classroom teacher has been spectacular. The facilities are beautiful and well-maintained. As a parent, there is no better feeling after you drop your child off for school, breathe a sigh of relief knowing that they are in a school that truly puts the students first, that they are loved, cared about and prayed for on a daily basis. - Posted by Parent - vrs 5/8/16/2016I now have 2 children attending PCA (this is our 6th year). The teachers are nurturing, passionate and knowledgeable. My children are challenged (in a good way) academically and retain the information they learn. The small class sizes help with individual attention when needed and the teachers are flexible when it comes to different learning styles/needs. There is a lot of parental involvement (it's not required but because of the family feel to the school, people just want to be involved/help out) - Posted by Parent - chwto 5/8/5/2016I had a wonderful experience as a student at PCA. The faculty truly cares about students' spiritual and academic well-being. I also deeply value the life-long friendships I was able to form, as well as the education that prepared me to excel at the college level. As a teacher now myself, I can better appreciate how "above and beyond" PCA teachers go for their students. - Posted by Student/Alumni - kiti 5/8/5/2016We are so blessed to have Plymouth Christian! We feel our children are excelling in academics and love the focus and attention on each individual student. Every staff member knows every child and is passionate about caring for them and teaching them. It's a wonderful school!!! - Posted by Parent - Jstire 5/8/5/2016I've had 3 kids graduate from pca. two more to go! it's been a great school for my family. Love the small class sizes. makes so much difference! some people think that if your student attends a small school, it reduces their chances for getting into good colleges. false. i've got a U of M (AA) grad, a Hope College and Liberty Univ grad, and another still in college. really thankful we invested all these years. - Posted by Parent - votem 5/8/5/2016My family has been at PCA since 2002. My daughter graduated in 2013. I have a son who is an 8th grade who is actually a before lifer at PCA (I was pregnant with him when I registered him for preschool) ... we love PCA .. the academics and sports are wonderful .. the teachers love their students and they love what they teach ... the staff is awesome .. they take the time to care about not only your student but you the parents with love and prayers .. it's family kind of school .. we care about your students academics, their sports ability but we want to see them grow in their love for God and His Son Jesus ... for us that is key - Posted by Parent - brd64Endorse Plymouth Christian Academy. Do I need to apply for admission to PCA separately from applying for financial aid awards? Yes. For new students, application to Plymouth Christian Academy and application for financial aid awards are two separate processes. However, new families may complete both application processes simultaneously. Will applying for a financial aid award hurt my student's chance of being admitted to the school? No. Admission applications and financial aid applications are evaluated separately, and an application for financial aid has no bearing on the admission process. Are all admitted students offered financial aid if the family qualifies? What kind of economic situation is typical of a family who qualifies for financial aid awards? A wide range of families with a variety of circumstances qualify for the program. Many factors are evaluated, including income, assets, unusual expenses, and the size of the family. Are some families awarded full tuition? No. Every family is required to make a financial investment in their child's education. A financial aid awards means we are sharing the investment with you. All families pay at least 50% of the full cost of tuition. What is the average financial aid award granted? Awards vary annually based on the number of applicants, specific financial needs, and the available funds. On average, financial aid awards range from 18-32% off tuition, with the maximum award granted of 50% off tuition. Who sees my financial aid application, and who makes the decision after they review it? PCA has used a company called FACTS for the past several years for our tuition assistance management. FACTS will continue to collate and secure the financial aid award applications. FACTS Management is a very reputable firm, serves thousands of private Christian schools and has an established confidential and secure process. After finishing the evaluation of your application, FACTS will collate the information regarding your family's financial situation for the PCA Tuition Office. All information is secure and held in strict confidence. Upon analysis of the information from FACTS, a final determination will be made, and you will be notified of any financial aid award for which you may qualify. When will we hear about the award decision for our financial aid application? Financial aid applications open in February for the upcoming school year. Current families receive priority processing until March 31st. Starting April 1st, financial aid applications will be processed for new/prospective families as well. For all applications, FACTS requires up to two weeks to provide a recommendation; PCA relies heavily on these recommendations when making the final award decision. How does PCA fund financial aid awards? Awards are granted based on a set reduction in the operating budget of the school. There is no outside funding. Are there other ways to reduce the cost of our tuition? Yes! Choosing a Christian education for your family is a JOY! But paying for it may feel daunting, even though it is an outstanding value with eternal benefits. Plymouth Christian Academy recognizes and appreciates the sacrifices that families make for their children to receive a Christ-centered, biblically based curriculum and instruction. To help make that investment workable for your family, following are some proven ways to make private tuition more affordable: Pray: He is, after all, our Jehovah-Jirah - our Great Provider! Where God guides, He provides (Isaiah 58:11). When He calls you to a place, He also equips you to be where He leads. We have heard so many amazing stories over the years of God's gracious provision....an unexpected gift, the generosity of extended family, a job promotion....truly, we serve an Almighty God! SCRIP: Fundraising - For Your Own Tuition Account??? Yes, it's true!! PCA allows you to fundraise to help cover your own tuition costs! Plymouth Christian Academy has partnered with "Shop with Scrip." SCRIP is a fundraising tool for schools, but PCA is unique in that we allow the school savings to be applied against individual family tuition accounts. As a family, you would use gift cards purchased through SCRIP to make your regular purchases or special purchases (for example stocking up on Lowes or Home Depot gift cards when planning a large home project). A rebate percentage, which varies by retailer, is returned to the school, and we apply it to your account. It's just that simple! Even better, you can ask friends and family to sign up as well and use their rebates to apply against your tuition. The program is flexible and allows you to purchase both electronic (downloaded to your computer or smart phone) and physical gift cards. For enrolled families, you can start saving today! Some of our families have earned over \$3,000/year using this program! Contact Laura Imlach at laura.imlach@plymouthchristian.org to enroll. MESP: Some families use their Michigan Education Savings Plan (MESP), a 529 Savings account, to pay for K-12 tuition at our private, accredited Christian school. Talk to your tax advisor or learn more at: How Does A 529 Plan Work In Michigan? (misaves.com) Scholarships: RenewNation is an organization specializing in promoting Christian education nationally and has a scholarship program for families who pursue Christian education for their K-12 students. PCA is an approved school and may submit applications in August of each year for current families qualifying within 150% of the poverty index. Also, the Children's Scholarship Fund provides scholarships for low-income families enrolling their students in private K-12 schools. They can be contacted at Apply for Private School Scholarships - Children's Scholarship Fund. A Better Chance is a national-scale program that provides financial aid for students entering grade 4 through 9. Note that this program is available only for students of color who are US Citizens: Eligibility Requirements - A Better Chance. Search online - there are often scholarship opportunities for specific demographic populations that may help! Contact your church: Many churches recognize the importance of Christian education as an extension of their own discipleship efforts and ministries to families and children. Churches have provided funding for their members with students enrolled at PCA to help support their congregation and ministry staff. Is Christian education and Plymouth Christian Academy really worth it? It is worth it - every single penny! The 15,000 hours a student spends at Plymouth Christian from kindergarten through 12th grade has eternal and significant value. The undeniable truth is that education helps shape your child's worldview and as Christian parents, we must use every means we can to bring up our children in God's way. Yes, it requires a significant financial investment and, for many, a sacrifice. But we're doing more than preparing our young people for the next step. We prepare them for life. Physical things will fade with time, but the investment we make in Christian education for our children will endure for eternity.
