GO FOR IT!BTW - for years I was a supplier to VALEO in your city. I met a number of people from there - all were very personable and well educated. - hello Mexico from Canada! Last edited by MagnAndy; 12-27-2013 at 01:38 AM. 12-30-2013, 02:16 PM #9 Guest Founding Member #0 Posts: n/a vCash: Question on Rislone MagnAndy, I am doing the carbs on my 85 Magna and in my notes from your posts you talk about Rizlone Real Seal Repair. Do you mean Rislone Rear Seal Repair? How would you use it on rubber parts? I also read the oil of wintergreen and alcohol version to soften the rubber. Looks like a good route to take. Thanks. Vegas Magna You are welcome!! And yup REAR seal sorry for the typo - and I paint it on with a small artist's brush when I do diaphragms - both sides. And then I let it sit for as long as I can - some times weeks. Then I wipe it off with paper towels. According to the Quality Manager and Product Application Specialist at Rislone - that product can also be safely added to the oil of wet clutch equipment like our bikes. 01-03-2014, 05:44 PM #11 Guest Founding Member #0 Posts: n/a vCash: Thanks Thanks MagnAndy, Appreciate all of your informative attachments for the Magna! My bike only has 9100 miles on it and is 95% cherry, but, I haven't gotten it running yet. The problems of not running a bike and leaving gas in it for 3 years. Got a good buy on it so I am doing the rebuilds on the carbs, brake, and clutch masters also. Just want to get it up and running so I can ride it. Thanks again, Vegas Magna. If you find an inaccuracy in our frequently asked questions, please let us know by using our contact form. A bicycle tire needs to be inflated quite hard. The exact pressure can be different for each bicycle and brand, but in general it is good to use at least 3.5 to 4.5 bar. The ideal pressure is often indicated on the tire. This was helpful (219) Read more With normal use it's best to lubricate the chain once a month. Increase this frequency in case of heavy use. Also lubricate after trips in heavy rain or lots of dust. This was helpful (172) Read more With a larger wheel you will travel more distance with a single rotation. Without extra gears or other aid this will often also cost more effort. It is therefore not true that bicycles with larger wheels will go faster. This was helpful (112) Read more Bicycle tires are made of rubber. This a natural product that is prone to drying out. This can happen due to exposure to sunlight or by the passing of long periods of time. A dried out tire can crack or go flat during the first ride. This was helpful (74) Read more 10-01-2009, 06:28 PM #1 Webmaster Founding Member #1 Join Date: Sep 2009 Posts: 6,570 Bike(s): 2017 HD Ultra Limited vCash: 4381 1994-2003 Magna Owners Manual and Service Manual (download here). Is magna bike good. What is the difference between a manual and magnetic exercise bike. Manual bike. Magna bicycle owner's manual. Is a honda magna a good beginner bike. Magna bicycle manual. Magna bike.
