1 Over **BILLION** people globally experience disability

1 in 7 people

People with disabilities have the same general health care needs as others

But they are:

- 2x** more likely to find health care providers' skills and facilities **inadequate**
- 3x** more likely to be **denied** health care
- 4x** more likely to be treated **badly** in the health care system

1/2 of people with disabilities cannot afford health care

They are: **50%** more likely to suffer catastrophic health expenditure

These out-of-pocket health care payments can push a family into poverty

Rehabilitation and assistive devices can enable people with disabilities to be independent

970 MIL people need glasses and low vision aids

75 MIL people need a wheelchair; Only **5-15%** have access to one

466 MIL people have disabling hearing loss

Production of hearing aids only meets: **10%** of global need **3%** of developing countries' needs

Making all health care services accessible to people with disabilities is achievable and will reduce unacceptable health disparities

-  remove physical barriers to health facilities, information and equipment
-  make health care affordable
-  train all health care workers in disability issues including rights
-  invest in specific services such as rehabilitation

Crime statistics south africa 2018 pdf.

Therefore, we must all have full recognition of the task entrusted to this current leadership. We have seen decreases in scary crimes such as cash theft in transit, bank robberies, car and truck hijackings as well as robberies from non-residential premises. Intelligence has played a big role in infiltrating would-be cash pickers and thwarted their plans in many parts of the country. To fight even more against the scourge of violence against women, we have heeded President Ramaphosa's call to reopen the investigation of all cold cases of gender crimes in the country. South African comrades, members of the media and the 2018/2019 annual crime statistics were declared as official statistics in accordance with the requirements of the Statistical Quality Assessment Framework of South Africa (SASQAF). This seal of approval will finally put end to questions about the authenticity and legitimacy of Crime Statistics. The General Statistician will read his preface to the media and then the National Commissioner General Sithole and Major General Sekhukhune will make a presentation that will reflect an overview of the 2018/2019 annual crime statistics compared to the same period. The above is a broad overview of the crime statistics presented. I thank you. While we are not where we want to be, we are definitely not where we were, there are glimmers of improvements. Therefore all our resources and operational strategies have been channelled accordingly towards achieving this target. However members of the media, in the past year since I joined the Police Ministry, we have thoroughly analysed and debated the crime trends with the management team of the police; with specific emphasis on the number of murders as our common denominator. This background is important to The debate of whether we are increasing, maintaining the decrease ³ this trend that has to focus specifically on murders. We believe that the reconstruction ³ crime intelligence, hawks and better working relationships with the State Security Agency, the National Authority of the Attorney General, the Department of Justice and the Department of Defense will continue to produce favorable results. This means that the rate of increase is slowing. This morning I address the nation³ on the theme of the annual launch of crime statuses certified by the Estadístico General de Estadística as official statuses. The current administration ³ received the ³ marching orders of His Excellency President Cyril Ramaphosa for half of the violent crimes in the ³. Every day, like the police service, our goal is to achieve this goal in the shortest possible time. The 6³ a a a a a task is a mammoth task, but it is feasible. Sobreflow Africans, during my presentation ³ votes of the budget on July 11 of this year, I made several pronouncements of how ³ we intend to turn the police around, including the reintroduction ³ units that were disbanded and some units under the resources in the last 6 years. Good morning, Sanibonani, this year demands a more significant emphasis on what informs our fundamental existence as the leadership of the police towards the delivery of our fundamental mandate to ensure that the peoples of South Africa are safe and secure. to safety.
