android bitmap wallpaper android-drawable — Roubar fonte I take a fingerprint from the user and add white background to it using glide. drawable = drawable.getCurrent(); Bitmap result = null; boolean isRecycleable = false; if (drawable instanceof BitmapDrawable) { result = ((BitmapDrawable) drawable).getBitmap(); } else if (!(drawable instanceof Animatable)) { result = drawToBitmap(bitmapPool, drawable, width, height); // We created and drew to the Bitmap, so it's safe for us to recycle or re-use. isRecycleable = true; } BitmapPool toUse = isRecycleable ? Gostaria de definir um certo Drawable papel de parede do dispositivo, mas todas as funções do papel de parede aceitam Bitmap papéis de parede. Não posso usar WallpaperManager porque sou pré-2.1. Além disso, meus drawables são baixados da Web e não residem R.drawable. Can anyone guide me and tell me what am I doing wrong.
