6. Read the following news item.

Nimone is a village on the Chauphula-Shirur Road. Like many others, this village has also been facing a severe water shortage for the last few months and villagers depend on tankers for all their needs. Bhagvan Mahadeo Lad (35) of this village was beaten with sticks, iron rods and axes by a group of seven men. The incident came to light when some villagers brought badly injured Lad to hospital for treatment. In the FIR recorded by the police Lad said that he was attacked when he insisted that the water in the tanker must be emptied into the storage tanks constructed as part of the water supply scheme by Nimone Gram Panchayat so that there would be equal distribution of water. However, he alleged that the upper caste men were against this and told him that the tanker water was not meant for the lower castes.

Adapted from Indian Express, May 1, 2004

Question Box: (NCERT Page 16) The children you see in the illustrations here were seen as 'disabled'. This term has been changed and now the term used is 'children with special needs'. Common stereotypes about them are given in large letters. Their own feelings and thoughts to are given. Discuss what these children are saying about stereotypes regarding them and why. Do you think children with special needs should be a part of regular schools or study in a separate school? Give reasons for your answer. Answer: Picture I: Stereotypes. The child says: I am a person. I feel shy. From staring eyes, I want to hide. Picture III: Stereotypes. Is her mind okay? The child says: Just because my legs are wobbly. People think my mind is wobbly too. These children are saying about stereotypes because they understand the attitudes of the people around them. They mock them and they tease them. Answer: These characteristics are applied to girls because they are born soft, gentle. They are well behaved. The girls possess these qualities at birth most of them. They also learn such behavior afterward, remaining in the house or school. The girls who are not soft and gentle and who are naughty, acquire these qualities from society. Question 8. Question Box: (NCERT Page 18) A common stereotype about Muslims is that they are not interested in educating their girls and therefore do not send girls to school. However, studies have now shown that poverty amongst Muslims is an important reason why Muslim girls do not attend school or leave school after a few years. Wherever effort has been made to reach education to the poor, there the Muslim community has shown an interest in sending their girls to school. For example in the state of Kerala, the distance between the school and the home is not much. There is a good government bus service that helps teachers reach schools in rural areas and over sixty percent of the teachers are women. These factors have helped children from poorer families, including Muslim girls, attend school in much larger numbers. In other states, where such efforts have not been made children from poorer families whether Muslim, tribal, or so-called lower castes find it difficult to attend school. Therefore, poverty not religion is the cause for the non-attendance of Muslim girls in school. Study the above extract and answer the questions given below. What is a common stereotype about Muslims? What reason has been given in recent studies for not sending Muslim girls to schools? Why do Muslim girls study in schools in Kerala along with other girls? What is the real cause of Muslim girls not going to school? Answer: The common stereotype about Muslims is that Muslims are not interested in educating their girls and that they do not send their girls to schools. The studies have suggested poverty as the reason for not sending Muslim girls to school. In Kerala Muslim girls go to schools along with other girls in large numbers: The distance between the school and home is very less. Women teachers are in large numbers in schools. The bus service in Kerala is very efficient. It is poverty, not religion. Question 9. Question Box: (NCERT Page 19) What is the difference between discrimination and stereotype? Answer: Difference: Discrimination Stereotype 1. Discrimination is the state in which one person is discriminated from others due to his poor and bad economic condition. 1. Fixing people into one image is called a stereotype. 2. Untouchables, Dalits etc. 2. Stingy, lazy, criminal etc. How do you think a person who is discriminated against might feel? Answer: He might feel hurt and might revolt against society. Question 10. Question Box: (NCERT Page 21) Despite the children offering money, the cartmen refused them. Why? How did people at the station discriminate against Dr. Ambedkar and his brothers? How do you think Dr. Ambedkar felt as a child when he saw the stationmaster's reaction to his statement that they were Mahars? Have you ever experienced prejudice or witnessed an incident of discrimination? How did this make you feel? Answer: Despite the children offering money, the cartman refused them because they were Mahars, the untouchable caste of the Bombay Presidency.
